

PeopleNet EventAlerter

*Get critical safety alerts and details
at your fingertips.*

When it comes to managing critical safety events, seconds matter. And you can't be everywhere at once. That's why the PeopleNet EventAlerter application sends real-time alerts of fleet incidents to your smart device. Wherever you are. Right when it happens. With EventAlerter, you can see—at-a-glance—major event details to help you monitor, track and manage safety incidents with timely and appropriate action.

- Receive real-time safety event notification, wherever you are
- See at-a-glance incident details to take appropriate, timely action
- Instantly update management about key events
- Tag events, add notes and email notifications to team members for follow-up
- Improve driver safety and reduce maintenance costs
- Available for iOS and Android smart devices

A safety app that puts *event data* in the palm of your hands.

From rollover-stability to sudden deceleration, EventAlerter delivers critical safety event information to your mobile device in real-time. So you can act accordingly and with immediacy—day or night, 24/7.

Exception-based notifications.

EventAlerter* aggregates and synthesizes event data in a single, comprehensive alert sent directly to your iOS or Android device. So you know when, where and how an event occurred—and who was involved. With EventAlerter, users get pinpointed insight, including:

- Satellite map of the incident, plus pre- and post-incident trails
- Graphical representation and tracking of data, including speed/RPM, vehicle stability, following distance and driver event history
- With optional eDriver Logs®, additional data includes driver's available hours of service (HOS) plus the past 24 hours of HOS activity
- Last five safety events for the driver to help assess the emergence of a negative trend
- Event follow-up capabilities allow you to tag events, add notes and email necessary information to colleagues

Application security.

Keep your safety data...safe. Managed by an administrator you assign, you can trust that your EventAlerter information remains confidential and protected, limiting access to those you select.

* EventAlerter requires the purchase of Trip Recorder software. Please contact your PeopleNet sales representative for more information.
