

THE DATA YOU NEED, HOWEVER YOU NEED IT.

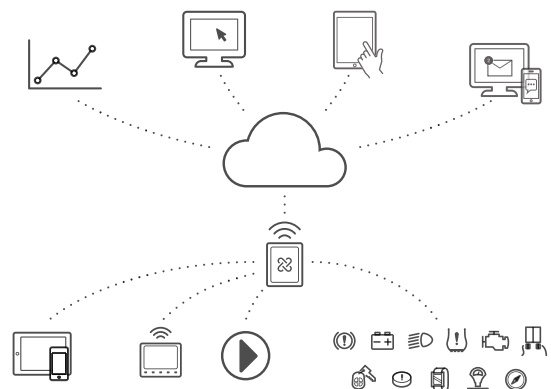

With PeopleNet's Data Services, you can access your fleet data like never before. Our data services are integrated with over 130 different software systems – including dispatch, transportation management, route optimization, fleet maintenance systems and more. They give you near real-time connectivity to your fleet providing GPS positions, engine statistics, driver messaging, eDriver log and geofenced dispatching just to name a few. Simply choose what's important to you and you're off and running.

Data can be accessed in multiple ways, maximizing customizability, whether you want direct access through services, subscriptions or a new database on your database server.

Tomorrow's data is tailor-made to your needs. And now, tomorrow's here.

The ConnectedFleet™ Platform & the Internet of Transportation Things™

PeopleNet's Data Services give you unprecedented access to your fleet data. Get all the information you need and want about your fleet in near real-time to improve efficiencies and make your fleet significantly more responsive and dynamic.

DATA ACCESSIBILITY YOUR WAY.

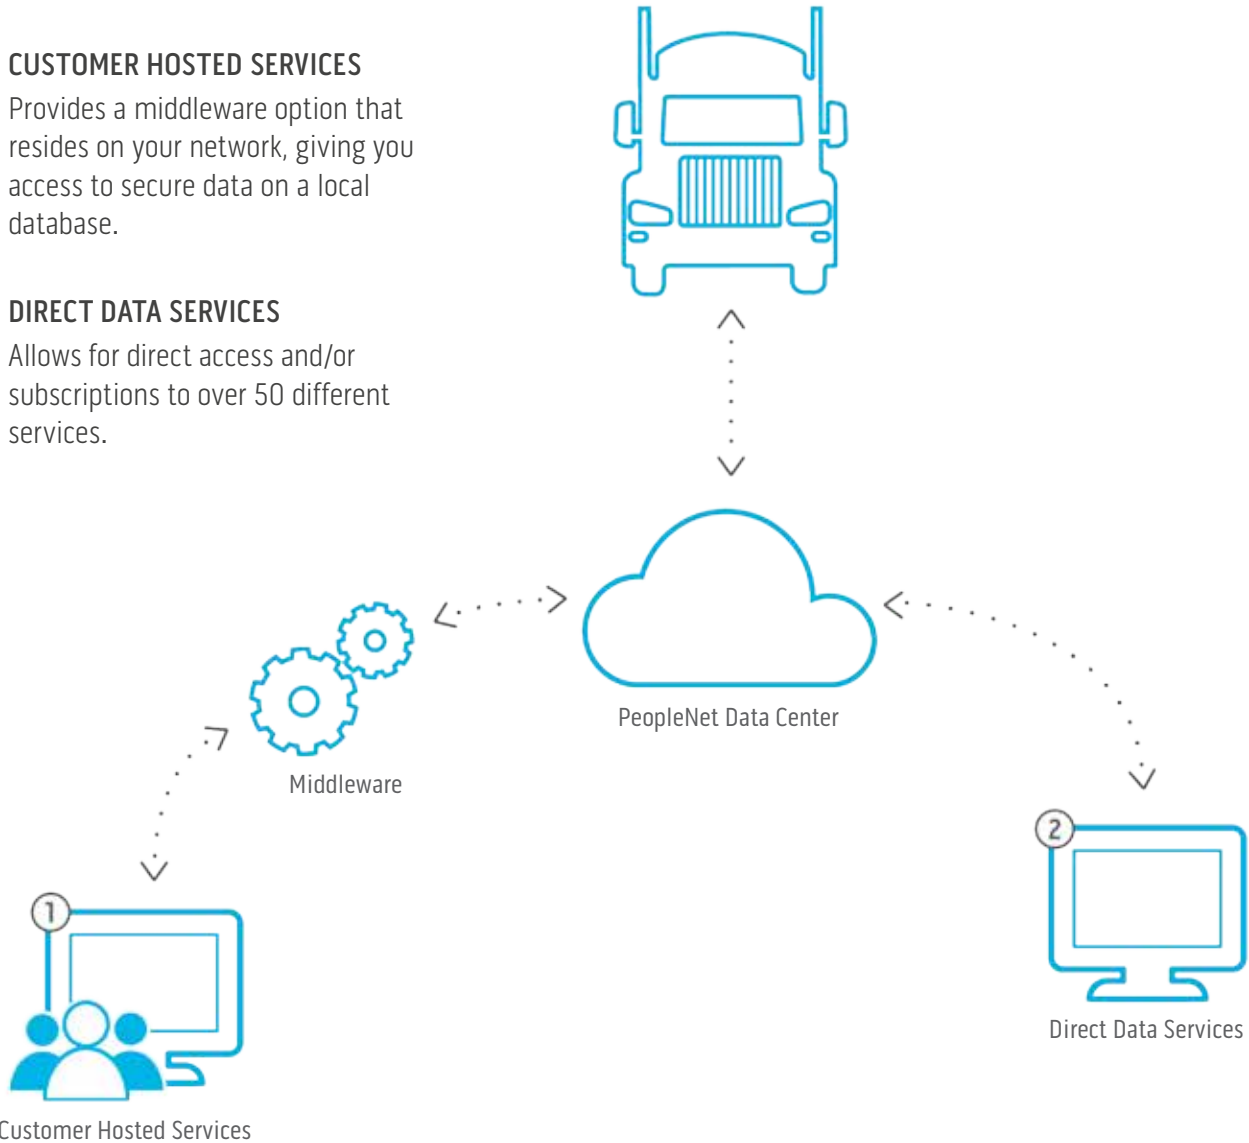

OPTIONS

① CUSTOMER HOSTED SERVICES

Provides a middleware option that resides on your network, giving you access to secure data on a local database.

② DIRECT DATA SERVICES

Allows for direct access and/or subscriptions to over 50 different services.
