

PROTECT NOW. PREVENT LATER.

The ConnectedFleet Video Intelligence System offers tomorrow's technology when it comes to fleet safety and security — all in one simple, fully-integrated solution. The new forward-facing camera isn't about watching your drivers. It's about looking out for your fleet by watching the road ahead. Research shows that 75% of accidents are not the fault of the truck driver. That's why our event-triggered video footage paired with real-time information — including vehicle speed, GPS location and more — provides a complete view of an incident to protect your drivers and your bottom line.

PeopleNet Video Intelligence is the ONLY solution on the market that can be fully integrated with your fleet mobility system. The user-friendly back office platform offers reliable driver safety analytics and on-demand video recall to help identify training opportunities and make continuous improvements to reduce future risk.

The ConnectedFleet™ Platform & the Internet of Transportation Things™

The Video Intelligence System acts as the eyes of the PeopleNet ConnectedFleet Platform, which harnesses the power of the Internet of Transportation Things to make your fleet significantly more responsive and dynamic.

GET CONNECTED LIKE NEVER BEFORE.

FEATURES & FUNCTIONALITY

DIGITAL VIDEO RECORDER

- 64GB memory
- Cellular / WiFi connectivity
- Integrated with camera and all existing PeopleNet onboard systems
- On-demand video recall

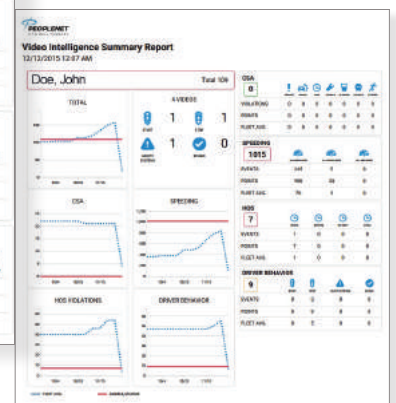

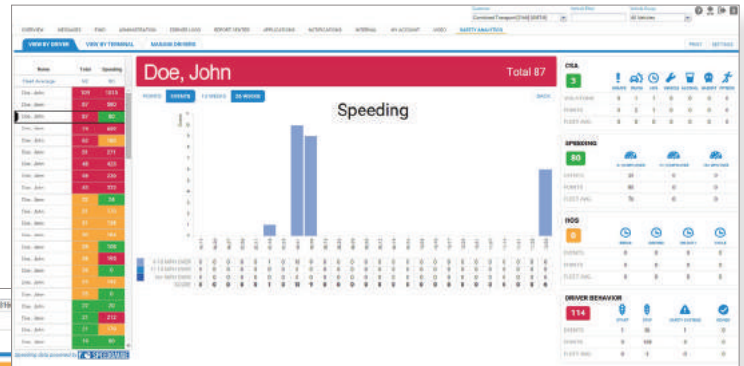

FORWARD-FACING CAMERA

- OER event triggers 20-second video clips
